

The preceding data pertaining to the final disposition of the original members of the 3rd. Platoon as of this date - July 10 - 1944 - may not be completely correct in all details but is as accurate as I was able to produce from all types of information which I accumulated during the period of time shortly after the end of the war. To me, one of the almost unbelievable facts of the Combat History is that the entire staff of non-coms of the original 3rd Platoon, although all were wounded in action, they managed to survive and return to their homes. This also included the Platoon Leader - Lt. Bob Blomeyer.
