The following Report of Operations summarizes briefly the activities of Division Artillery for the month of June 1945.

1 June 1945

In compliance with Operations Memo 42 (Attached), the 35th Div Arty was enroute from the Ruhr area to take over the Kreis of Birkenfeld and Kreuznach from the 66 Inf Div Arty. Moving by motor up the scenic Rhine valley, divisional artillery units closed into bivouac areas in the new locality by 012145 June '45, prepared to make preliminary plans for the relief of the 66 Inf Div Arty. The disposition of Div Arty units was as follows: Div Arty Headquarters at Sobernheim; 219 FA Bn at Birkenfeld; 161 FA Bn at Baumholder, and 216 FA Bn at Oberkirchen, Germany. Each Field Artillery Battalion and the attached 448 AAA (AW) Bn was assigned an area to occupy and govern which conformed generally to the areas mentioned above in disposition of the units. The 161 FA Bn, however, was assigned the mission of taking over the control, operation, and guarding of the 15,000 man Russian DP Camp located on the outskirts of Baumholder.

2 June 1945

All Divisional Artillery units assumed responsibility of governing and occupying their assigned areas, having relieved the 66 Inf Div Arty at 1800. All Guard posts and target installations were manned by the 35th Div Arty with the exception of MSR posts handled by stationed MSR Military Police Units. The Government of the area was subdivided as follows: The Divisional Artillery Military Government Officer was to be stationed in Sobernheim and he would exercise control over each Landkreis, each of which had its own occupational military government detachment. The government center in the Kreuznach Kreis was at Bad Kreuznach while that of the Birkenfeld Kreis was in the town of the same name. The static Military Government teams had been in the area for several months and the control of the Kreis had been well centralized in

each case. The biggest problem naturally was the handling of the Russian DP Camp at Baumholder. To help transport out the Russians, a French Truck Company was attached to Division Artillery. When conditions permitted 2000 Russians were evacuated every other day from this camp.

3 June 1945

To handle mounting military violations and other daily incidents of maintaining order in the area, Division Artillery formed a Military Police Detachment, consisting of a Division Artillery Provost Marshal and including one completely organized Military Police Battery from each of the Battalions, giving a total of five Military Police Batteries. Additional equipment for this organization included 6 Radio  $\frac{1}{2}$  Ton Trucks, and 3 M-20 Scout cars. Temporary Police control in the area at this time was under B Company 134 Inf who had been mobilized and utilized as a military police organization. Division Artillery Military Police units contacted the above mentioned unit preparatory to relieving them of police control throughout the area by 10 June 1945.

4-30 June 1945

With minor changes in targets and installations guarded, Division Artillery completed the balance of the month with training schedules, athletic programs, and preparations for transferring men with high-point scores to other Category 4 units. The athletic program instituted throughout Division Artillery, under supervision of Div Arty Athletic Officer, included softball leagues, hardball leagues and other inter-battalion teams. Each battalion organized a softball team which participated in the Division Softball Tournament. This Tournament was won by the 448 AAA (AW) Bn team from the 3d Bn, 320 Inf on 23 June '45. Division Artillery softball teams were to begin a tournament within Div Arty beginning 2 July 1945. In addition to the above mentioned, 6 hardball players were furnished for a division team for a tryout, while Div Arty organized their own hardball team under Lt. Stuckman at Stromberg.

Emphasis during the month along administrative lines included more inspections, clothing checks, and formations intended to gain back the garrison efficiency of the units.

I & E activities during the month were limited to preliminary classes for instructors on methods of teaching etc, and required films were shown to the men. These films included "On TO TOKYO", "This Is The Philippines", and "War Comes To America". S-2 activities were limited to gaining information of war criminals coming under the SHAEF Automatic Arrest Category. In addition to determine the presence of contraband, a raid was held in a city block in the towns of Birkenfeld and Bad Kreuznach on the 23 June. This raid included a thorough search of the houses and the belongings within the blocks, and a strict screening of all civilians within the block by the CIC. A full report of the activities is attached to this report.

The activities of the Air Liaison Section during the month were limited to routine administrative flights, including a daily message center flight to Division Message Center. The location of the air field for the month was at the town of Meddersheim, Germany, West of Sobernheim.

As the month came to a close, Division Artillery continued to occupy and govern the assigned area, having successfully cleared out the Russian DP camp at Baumholder.
