SUBJECT: Report After Action Against Enemy.

TO : The Adjutant General
Washington 25, D. C.

1. In compliance with the provisions of Par 10 C3, AR 345-105, submitted below is report after action against the enemy for the 35th Quartermaster Company covering the period 1-31 March 1945.

March 1, 1945

The 35th Quartermaster Company moved from Stahe, Germany a distance of approximately sixteen (16) miles to Hucklehoven, crossing the Roer River.

March 2, 1945

The 35th Quartermaster Company moved eighteen (18) miles North to Bruggen, Germany. During this period the organizational trucks were used to transport personnel of the Infantry Regiments in their drive to the North.

March 4, 1945

The 35th Quartermaster Company moved another fifteen (15) miles North to Stadt Straelen, Germany.

March 11, 1945

The 35th Quartermaster Company returned to Bruggen, Germany. During the Division rest period, 11-26 March, this organization endeavored to replace all items of clothing and equipment needing repair or replacement throughout the Division.

March 26, 1945

The 35th Quartermaster Company made its Rhine River crossing while moving Northeast to Lohren, Germany.

March 30, 1945

The 35th Quartermaster Company moved ten (10) miles East to Hesfeld, Germany, and at the close of the period maintained its position in this area.

2. The primary mission of the organization was the receiving, breaking down and issuing of Class I, ~~and III~~ ^{Class I} Rations, to the units of the Division plus attached troops. Class I supplies are issued daily with ration strengths being submitted by the using units seventy-two (72) hours prior to issue. During the period

1-31 March 1945 a total of 544,279 rations were issued by this organization. Rations were issued as follows:

B's	76.9%
C's	00.3%
K's	19.6%
10 in 1	3.2%
Daily Average - 17,557 Rations	

3. Requisitions for Class II Supplies are submitted by organizations each Sunday. Supplies are drawn by this organization on Tuesday and issued to the using units on the following day.

4. A Division Reserve of 4000 gallons of gasoline was carried on four two and one-half ton trucks and trailers. This reserve was used for refueling vehicles drawing supplies, emergency needs, and for units of the Division upon change of location until such time when Class III dumps could be set up.

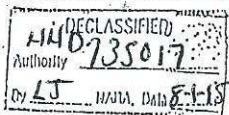

5. Another function of the organization during this period was to keep the field ranges, gasoline lanterns and outfit, cooking, one and two burner, and typewriters repaired. Due to the lack of parts this organization carried eight to ten field ranges on hand. The units brought their ranges needing repair in and received direct exchange of another one. This organization then took the ones needing repair back to a field range repair unit near the Army Class II dump and had them repaired. All minor repairs up to and including 2nd Echelon repair on typewriters, gasoline lanterns, and outfit, cooking, one and two burner were done by men of this organization in order to speed up delivery of the items back to the using units. When 3rd echelon repairs were needed the items were taken to a QM Repair Unit located near the Army Class II Dump.

6. The Division Quartermaster, in addition to his other duties, is the Graves Registration Officer for the Division. During this period there was a Graves Registration Section attached to this organization. It was the responsibility of the Division Quartermaster to set up collecting points and handle the evacuation of the dead to the cemetery as well as handle the personal effects of casualties.

7. Bathing and Laundry facilities were also established by the Division Quartermaster and were under his supervision.

8. All salvage, including enemy captured materiel were turned in to the salvage dump at the Class I breakdown area. The salvage was then sorted according to the various branches of supply by men of this organization. Quartermaster salvage was then taken to Army Class II Dumps and other branches of salvage were turned over to their respective supply officers. Shoe repair tentage and tarpaulin repair were handled by men of this organization. Each unit tagged items returned for repair. This organization took the items to Army Class II Dumps where a salvage repair unit is located. This resulted in a considerable saving in the issue of like new items.

9. During the period 1-31 March 45, the 35th Quartermaster Company lost four (4) EM Sick (Eosp). One man was wounded - non-battle casualty. Two (2) Officers were transferred, and one (1) EM (Motor Boat Specialist) was transferred to the 1153rd Engineer Combat Group, piloting motor boats in the initial attacks of the Rhine East bank. One (1) EM was transferred

to Officer Candidate School (Infantry). Six (6) EM joined the Company as reinforcements and four (4) EM returned to duty from Sick (Hosp).

Awards received by members of the 35th Quartermaster Company during the period are as follows:

<u>OFFICERS</u>	<u>ENLISTED MEN</u>	<u>BRONZE STAR</u>	
		<u>Reg</u>	<u>Olc</u>
0	1	1	0

10

No battle casualties were suffered by this organization during the period.
