HEADQUARTERS FOUR ENGINEER COMBAT BATTALION

APO 35

US ARMY

1 July 1945

SUBJECT: Report of Operations.

TO : The Adjutant General,
War Department,
Washington 25, D.C.

The following Report of Operations of this unit is submitted for the month of June 1945.

On 1 June 1945, the battalion moved by motor convoy from Wadersloh, Germany, to an area in the vicinity of Coblenz, Germany. Battalion Headquarters, Headquarters and Service Company, and Company A bivouaced in Winnigen, and Companies B and C bivouaced in Kobern. The battalion was given an engineer mission, including reconnaissance, road repair and construction. In addition, a training program was inaugurated with special emphasis placed on recreational activities. Athletic officers and non-commissioned officers were appointed in each Company, and Captain John A Lloyd S-2, was appointed Battalion Athletic Officer. An extensive sports program was developed, consisting of Company and Battalion softball teams, swimming, boating and weight lifting. Floating piers, baseball backstops, basketball backboards, etc., were constructed for units of the 35th Infantry Division, and the battalion maintained several power boats on Laacher See for use by 35th Division troops.

During the month, two bridges were constructed by this battalion. Co A constructed a class 10 timber trestle bridge in the vicinity of Soberheim, consisting of four spans of fourteen feet each. Co C constructed a two-way class 40 - one-way class 70, timber trestle bridge over the Sieg River near Wissen. The bridge was seventy-five feet long and had a thirty-five foot high crib.

The battalion also repaired roads between Coblenz and Winnigen by filling craters and widening usable road width so as to accommodate two-way traffic.

The battalion destroyed over 750 Reigel mines and 200 rounds of German rocket projector ammunition, utilizing German prisoners of war to move these mines to locations selected for demolition. Prisoner of war labor was also used to remove log road blocks on secondary roads in the division area.

At the close of World War I, US Army Engineers built a stadium in Coblenz for use by the occupying forces. This stadium was badly damaged by allied bombings in 1944, but immediate steps were taken by Co B to repair it for use by this division. It was necessary to fill numerous craters, level the baseball field, and patch and repair several holes in the stadium. New glass was procured and installed.

CLASSIFICATION CHANGED TO:

- 1 -

Report of Operations Hq 60th Engr C Bn 1 Jul 45 contd - - - -

Battle casualties for the month of June 1945 are as follows:

	OFF	EM
KIA	0	1
LWA	0	2
DOW	0	0
SWA	0	0
SIA	0	0
LIA	0	0
MIA	0	0

During the month, formal presentations of eleven Bronze Stars were made to members of the battalion. On 2 June 1945 at Kobern, Germany, the Bronze Star was presented in a formal ceremony to Pfc Willard J Moran, Company C, for heroism in December 1944. The authority for this presentation was General Orders 34, Headquarters 35th Infantry Division, dated 22 May 1945. At a formal ceremony at Kobern, Germany, on 5 June 1945, the Bronze Star awarded to Sgt John L Garvey, Company B, by General Orders 47, Headquarters 35th Infantry Division, dated 25 October 1944 for heroism during that month, was presented. At a formal ceremony at Winnigen, Germany, on 6 June 1945, Bronze Stars were presented to Captain John A Lloyd, Headquarters; Captain Robert W Johnston, Headquarters; Captain Charles W Harris, Hq & Sv Co; 1st Lt Charles D Meckes and CWO Kenneth W Anderson, Headquarters; M Sgt Lee B Brown and T Sgt James H Coppage Jr, Hq & Sv Co for meritorious service. These awards were authorized by General Orders 41, Headquarters 35th Infantry Division dated 5 June 1945. At this ceremony the Bronze Star, authorized by the above order for heroic action in April 1945, was also presented to Sergeant John J Joura, Company A. At a formal ceremony at Winnigen, Germany on 27 June 1945, the Bronze Star awarded to Tec 5 Roy J Smetak, Medical Detachment, for heroism in February 1945, was presented. The authority for this presentation was General Orders 48, Headquarters 35th Infantry Division, dated 21 June 1945. Lt Colonel Philip Botchin was awarded a second Bronze Oak Leaf Cluster to the Bronze Star by General Orders 42, Headquarters 35th Infantry Division, dated 7 June 1945.

Awards received by members of this battalion are as follows:

60th Engineer Combat Battalion
Winningen, Germany

ENGINEER SEMI-MONTHLY OPERATIONS REPORT

TO: Engineer XXIII Corps US Army

Period covered: 01 Jun 45 to 15 Jun 45

1. Major engineer tasks completed:

a. Roads: This battalion repaired roads between Koblenz and Winnigen (L850910 to L875965) by improving fills in numerous bomb craters and widening usable road width so as to accommodate two-way traffic. Personnel and equipment were maintained at a minimum, averaging one platoon daily in order to maintain maximum number of personnel for training.

b. Bridging: Constructed a class 10 bridge on a secondary road at L927312. Bridge constructed was a timber trestle consisting of four spans at fourteen feet each. Construction time was approximately 340 man-hours. Principal difficulty encountered was the procurement of materials which resulted in some delay.

c. Demolitions: Two gate type road blocks located at L875963 and L875927 were destroyed by demolition of hinges and supports. Time required was approximately two man-hours. Seven hundred and fifty Reigel mines, eleven tellermines and two hundred rounds of German rocket projector ammunition were also destroyed. German prisoners of war were utilized in moving Reigel mines to locations selected for demolition.

d. Camouflage: None.

e. Field Fortifications: None.

f. Minefields: Mine signs were posted on anti-tank mines found at L565615. An area in the vicinity of Laacher See (FO066) was checked for mines at the request of 35th Division G-2. No mines were found.

2. Major Engineer tasks uncompleted and turned over to Communications Zone: None.

3. Important fires: None.

4. Major survey and mapping projects completed: None.

5. Major map reproduction projects completed: None.

6. Items of Engineer interest: This battalion made extensive repairs to an athletic stadium at Koblenz which was constructed by US Army Engineers at the close of World War I. The battalion also constructed boating and athletic facilities at Laacher See (FO066) for use of the 35th Infantry Division as a recreational area.
