1. 1. The first part of the report is the title page.

1. The first step in the process of identifying a problem is to recognize that a problem exists. This involves gathering information about the situation and identifying the specific issue that needs to be addressed.

(The following text is extremely faint and largely illegible due to low contrast and resolution. It appears to be a continuation of a technical or scientific document.)

These authors also found that the use of a single, standardized, and validated questionnaire (the SF-36) was more reliable than the use of multiple, non-standardized, and non-validated questionnaires.
