	1110	8	"	Regtl Regular and Special Staff, Bn and Sp Unit COs notified of meeting at CP at 1300.	S,T
1300		9	"	The following are notes on meeting held by Lt Col Alford C Boatsman, Commanding Officer, at the CP in Borholz, Germmany at 1300, 14 Mar 1945. This meeting was attended by the Regtl Regular and Sp Staff, Bn and Sp Unit COs. "This morning the Commanding General held a meeting of all his unit commanders and the following are some of the thing that he held all of us responsible for. I in turn hold each of you responsible to see that each officer and man of your unit are informed of these things. First, the General wished to extend his commendations and thanks for the successful completion of our last mission. We accomplished it in a minimum of time with a minimum of losses. Our mission in our present location is complete rest and recuperation, cleanup, and rehabilitation. We are in good shape now in numbers, being up to TO, and all the newer men havenow been in the lines and have been shot at enough to let them know what it is like. The matter of first importance is the complete cleanup of billets, equipment, and vehicles, to include the washing of motors. The cleanup of billets is to include the building inside and out, and the grounds in your respective area. It is permissable to requisition civilian labor for the police of the area through the CA, Capt Sullivan. He has directed that we will have a daily inspection of billets, kitchens, latrines, clothingand equipment. Two of these inspections a week will be comparable to Saturday inspections back in the States. Shoulder patches will be worn by everyone at all times. There is some trouble in procuring these at present, but G-4 has been directed to procure more. All clothing will be washed and pressed. Civilian labor may be used for this and arrangements made through Capt Sullivan. Discipline and military courtesy will be emphasized at all times. On a whole it is not too good. Instructions will be given to all men on calling attention and reporting. Helmets, sidearms and weapons will be worn at all times out of doors. Looting must be checked at all times. On a move vehicles are still going down the road with mattresses and bedding visible. This is clearly looting. There is a letter down from the CG Ninth Army in which General Simpson holds each unit commander responsible for looting and he directs that all infractions of the regulation will be dealt with rapidly and severely. Rape. It has been brought to the attention of commanders that in the sector from Venlo on there have been several cases of rape, not necessarily in this Division but in the Corps. We are all familiar with the punishment for rape as set forth in the Articles of War. Gen Baade has directed that all cases of rape will be investigated at once, no matter what time of day or night, and that this investigation will be completed in six hours, that charges will be filed within 24 hours, and	

TIME IN	TIME OUT	SERIAL NO	TIME DATED	INCIDENTS, MESSAGES, ORDERS, ETC. (DAY AND DATE)	DIS-POSITION
1300	(cont'd)	9	14 Mar	that every effort will be made to have the man tried and sentenced within 48 hours.	

Fraternization willinot be tolerated. It has been forbidden by several Army Regulations and these will be enforced. There will be no civilians in the same house with soldiers, and soldiers will not talk to civilians unless authorized to do so in the line of duty and then only in a minimum. This must be clearly understood by everyone.

Col Snyder, Division CAO, states that the civilians have the same attitude as they did after the last war. They are already talking and planning for the next war as they firmly believe that the Nazi way is the only way.

Although we are behind the light line, and can drive with lights, buildings must be blacked out and this will be checked.

The General mentioned AWOLs and stated that now is the time when we can talk to the men and then show them what a mistake it is to go AWOL. Remind them that the war will be over some day and then the court-martial and dishonorable discharge on their records will be held against them even though they don't serve all of their time. Also make the men going on pass VD conscientious.

On the subject of captured vehicles, the General stated that all vehicles in the regiment must have a letter of request submitted to Division showing the how and where of their capture and the reason why the vehicle is needed. If approved, Division will assign them a W number and they will be subject to the same regulations as a regular government vehicle. Each Regimental Hq is allowed on sedan. There will be no bicycles or motorcycles in the regiment. Anyone driving a civilian car, bicycle, or motorcycle will be tried by court-martial.

Duffel bags are being moved to this area. All shoe pacs will be cleaned and turned into this area for storage. Also, much of the extra equipment now carried can be stored here.

The Genral has directed that all OP signs be renewed or replaced. This will include an extra set in case of loss. Also two new sets of march unit signs will be made for the CT.

Traffic. Double banking has become quite prevelent. All drivers must be instructed on regulations against this and also on other driving regualtions. Only ¼ ton vehicles can pass a convoy. Stress the keeping of 60 yd interval when in convoy either while moving or at a halt.

The Division is at present responsible for the police of the assembly area and we are in turn responsible for our area. By this is meant the cleaning up of all the trash and rubble in the towns and along the roads. The CAO is authorized to requisition civilians to do this. It is better to keep the civilians busy as then they are more easily controled.

Remember that all future operations are TOP SECRET. They will not be discussed by anyone.

There will be very little training from a schedule standpoint, but it is advised that the men be made familiar with "marching fire" on which we are all sold.

Pass quotas are to be increased 5% so that now we are allowed 20% on pass. Men going on pass must be in proper uniform, clean, and deserving of the privilege. This is the responsibility of the headquarters issuing the pass. Towns in which Rest Centers are located are off limits to troops not staying at the Rest Center. Arms will not be taken to the Rest Center. It is important that details report to Rest Centers on time as it causes a mixup in the schedule if they are late.

All kitchens are to be improved and it is advised that

1300(cont'd)		9	14 Mar	mess halls be put under cover and be equipped with tables and chairs for the convenience and comfort of the men. Immediate action will be taken to clean up the reading of the Articles of War to the men and the completion of the Sex Morality lectures. Also, the men should be made familiar with the history of the Regiment prior to its coming over seas and the story of the achievements of the regiment since its arrival in the UK and on the Continent. The Drum and Bugle Corps will have their instruments in the near future and will be available for all units.

TIME IN	TIME OUT	SERIAL NO	TIME DATED	INCIDENTS, MESSAGES, ORDERS, ETC. (DAY AND DATE)	D.- POSITION
0930		6	24 Mar	The following are notes from the meeting in Item #5: (Lt Col Boatsman) Last night was D-night for the Ninth Army and the 21st Army Group. the Br and Canadians jumped off at 2400 to cross the river and the Br Commandos crossed the river to enter Wessel. At 0200 the 30th Div crossed south of Wessel and at 0300 the 79th Div crossed on the right of the 30th Div. the latest news is that at 0400 the 30th Div had six Bns over and had advanced about 2000 yds. They crossed at three places in assault boats. The opposition was light with some arty and mortar fire. At the same time the 79th Div had 3 Bns over and had also advanced about 2000 yds. Walsum has been captured. The Br jumped off with two Corps and had eight companies over and part of one Commando Bn. Gen Baade made the remark that Gen Patton stated that he would be across the river by Sunday, but the report is that he crossed Thursday night. Gen Baade orders that all of the following information be carried on down to each and every man, this is not always done as it should be. Much of it is a repetition of what was brought down from the last meeting. All vehicles, equipment, and personnel must be ready to move. The Gen directs that all rust spots on vehicles be painted. All the above must be in condition to move 400 miles without a stop for the purpose of repair or reconditioning. It is very likely that a great deal of the moving will be on foot. It will be a constant push from now on. Be prepared for moves of from 2- to 30 miles a day on foot. The rest of the time in this area will be used on physical conditioning. The Gen made some remarks about the condition of the locator files of the units. This is the responsibility of the unit commander to check these periodically. Also he directs that the unit mial orderly files be checked. The VD percentage in the Division is higher than it has been for a very long time. It is strange to note that this increas came about while the units were engaged in combat. Emphasis must be placed on this and the men made conscious of this. Rape and looting has to be constantly brough to the attention of the men. The Gen believes that the unit is cleared as far as rape is concerned but not the same can be said for loting. A recent letter from Gen Anderson on looting is to be read to all personnel. All daily passes will be cancelled as of 2400 25 Mar. From this time on no key personnel will be allowed to go onpass. Men going on pass must exchange money with the Division Finance Office prior to going on pass. All Reinf must be oriented as to the situation and the history of the unit when they join. They are also to know the units they are a part of to include Division, Corps, Army, and Army Gp. Also the names of the commandersof these units, the Regtl and Bn COs and Staffs, and their company officers. All letter on captured vehicles have been returned as Ninth Army has set no policy on these as yet. Div CO has set the number to be retained. The letters on these vehicles must state the circumstances under which they were taken so as to definitely establish the fact that they were German Army vehicles, or Government vehicles, not civilians. Each regiment will be allowed to keep 1 sedan and 14 other vehicles. No limit on trailers. For this next operation we will not carry gas masks but they must be available in 24 hours. They will not be left in the Duffel Bag area. Enemy capabilities are that they may drop paratroopers in the rear areas as a harassing measure. For this reason all personnel must carry their arms at all times and they should travel in pairs. Each unit must be responsible for its own security. The civilian situation is	

TIME IN	TIME OUT	SERIAL NO	TIME DATED	INCIDENTS, MESSAGES, ORDERS, ETC. (DAY AND DATE)	DISPOSITION
0930	(cont'd)	6	24 Mar	expected to bedome more of a problem as we go deeper into Germany. The Division policy is to freeze all civilians in place. A minimum amount of moving is to be done. The Gen directs that everyone be advised that all people in Germany are Germans. Along with this the nonfraternization policy must be stressed at all times. We are to cross the Rhine on D plus four, this being D-day. We may move to an assemble area and then over the river or we may move right across from here. This is all subject to change depending on the results of the crossing and the breakthrough. Present plans are to construct four bridges in the 30 Div zone and three in the 79th Div zone. Two Corps are set to cross the Rhine behind us. All vehicles in the Regt must cross at one time in one convoy. After once across they will stay across. The only thing to be left on this side will be the duffel bags. Traffic must be kept moving and everyone must stay in column. The best G-2 information indicates no more than two Divisions are available in our sector across the river, that is in the 21st Army Gp. They are no capable of any full scale counterattack such as in the Bastogne area, but local counterattacks up to a Bn in strength with up to 12 tanks are expected. Radio silence to be enforced until further notice. Men must be made to conserve rations as only a five day supply of hard rations will be readily available. This is one current, two in the regt, and two additional carried by QM. The meeting ended at 1010.
